New Issue Summary

Sale Date: Week of March 7, 2022

Series: Series 2022-1, 2022-2 (taxable), 2022-3 (taxable)

Purpose: Series 2022-1 and 2022-2 bond proceeds will be used to fund \$423.8 million in capital plans, and the series 2022-3 bond proceeds will refinance existing series 2013-2, 2014-1, 2015-1 and 2015-2 bonds for savings and pay cost of issuance.

Security: University of Massachusetts (UMass; or the university) revenue bonds are secured by a pledge of the university's gross unrestricted revenue and other legally available funds.

The 'AA' Issuer Default Rating (IDR) and revenue bond rating reflect UMass' role as the Commonwealth of Massachusetts' flagship public research system of higher education and the strong operating and capital support provided by the Commonwealth (AA+/Stable). The rating further reflects UMass' rigorous attention to managing cash flow needs in support of its material capital improvement program and the tolerable increase in debt associated with the current transaction. The 'F1+' rating is consistent with the university's strong long-term credit profile and reflects its ample reserves in support of its very modest self-liquidity obligations. The Stable Outlook reflects Fitch Ratings' expectation that UMass' financial and operating profile will remain resilient, with steady enrollment and a commitment to preserving a structural operating balance at each campus and across the system.

Key Rating Drivers

Revenue Defensibility: 'aa'; Manageable Enrollment Pressure, Strong State Support: The 'aa' revenue defensibility assessment reflects UMass' steady enrollment trends over time, against somewhat mixed demand characteristics that are reflective of a statewide public system. Enrollment has remained within a narrow band through the pandemic thus far, most recently with a 2% decline in fall 2021 following a 0.1% increase in fall 2020. The 'aa' assessment also reflects the consistent and solid support provided by the Commonwealth of Massachusetts (equal to about 24% of fiscal 2021 revenues) and the sustainable operating support provided by UMass' sizable endowment.

Operating Risk: 'aa'; Resilient Operating Performance; Sizable Capital Plans: The 'aa' operating risk assessment is driven by very steady operating results, with cash flow expected to remain solid near current levels (13.6% in fiscal 2021) beyond remaining pandemic impacts in fiscal 2022. UMass' systemwide operating and efficiency efforts are expected to bolster cash flow resilience in support of its robust capital improvement plan, which will be funded by a combination of external (both debt and public) and internal resources.

Financial Profile: 'aa'; Solid Financial Profile with Adequate Liquidity: UMass is expected to maintain liquidity against its debt and expenses at a level consistent with the 'aa' assessment. It had approximately \$1.9 billion in available funds (AFs) at fiscal YE 2021, equal to about 54% of total expenses and 44% of adjusted debt. The series 2022 transaction will weaken leverage to about 41% from 44%. Leverage levels are expected to remain fairly consistent with the 'aa' assessment through Fitch's stress case scenario, inclusive of additional debt expectations over the longer-term capital plan timeframe.

Asymmetric Additional Risk Consideration: Neutral: No asymmetric additional risk considerations apply to UMass' ratings.

Rating Sensitivities

Factors that could, individually or collectively, lead to positive rating action/upgrade:

 Continued favorable trend of revenue growth and prudent expense management, which translate into stronger cash flow and balance sheet strengthening, would prompt upward rating consideration, particularly as AF levels approach 80% of adjusted debt.

Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Failure to maintain steady leverage levels against expected increases in debt and capital needs may pressure the rating, should AF-to-total-adjusted debt fall persistently below 30%.
- A sustained decline in operating performance resulting in adjusted cash flow levels consistently below 12% could pressure the rating, particularly against UMass' sizable expected capital improvement plan.
- Material erosion in internal liquid resources and/or significant downward movement in the university's long-term rating, while highly unlikely, would influence the short-term rating.

Credit Profile

UMass is the Commonwealth of Massachusetts' only public research university system. UMass was established in 1863 and encompasses five separate campuses at Amherst (its flagship campus), Boston, Dartmouth, Lowell and Worcester. The five campuses are geographically dispersed throughout the Commonwealth and possess distinct and complementary missions.

In fall 2021, the system enrolled 64,785 FTE students, 78% of whom were undergraduates. Of note, UMass' systemwide online platform (UMass Online) provided over 311,600 course credits across all five campuses in the 2020-2021 academic year, with over 300 degrees, certificates and continuing medical education programs, and UMass Online grew its revenue over 2% yoy.

The University of Massachusetts Building Authority (UMBA), the university's debt issuance arm (reported as a blended component unit of the university), is a public instrumentality of the Commonwealth of Massachusetts and is empowered to construct dormitory, auxiliary, academic and other facilities for the university's campuses. Fitch does not view the UMBA as having any distinct operating risk from that of UMass, and thus, no separate IDR is assigned.

Coronavirus Impact

The ongoing coronavirus pandemic has created an uncertain environment for the U.S. public finance higher education sector. Fitch's forward-looking analysis is informed by management's expectations and by Fitch's macroeconomic views. Fitch's scenarios will evolve as needed during this dynamic period. For the 2020-2021 academic year, remote learning was the predominant model with curtailed campus activity and residential occupancy. In the current 2021-2022 academic year, campuses have transitioned back to a predominantly on-campus mix of in person, hybrid, and some online instruction.

As a partial offset to the financial impacts of the Covid-19 pandemic, UMass was awarded \$145 million in Higher Education Emergency Relief Fund (HEERF) institutional federal stimulus aid, of which approximately \$14 million and \$58 million were recognized in fiscal years 2020 and 2021, respectively, with the remaining \$73 million to be used primarily in fiscal 2022. The Commonwealth is providing an additional allocation of \$47 million in American Rescue Plan Act (ARPA) funds in 2022 and 2023, in support of further pandemic mitigation and other targeted university efforts.

Revenue Defensibility

Enrollment has been somewhat pressured through the pandemic; total FTE enrollment fell by 2% in fall 2021 across the system, just short of a 1% budgeted decline. Management reports

Rating History (IDR)

		Outlook/	
Rating	Action	Watch	Date
AA	Affirmed	Stable	2/28/22
AA	Upgraded	Stable	10/13/10
AA-	Revised	Stable	4/30/10
A+	Affirmed	Stable	7/22/03
A+	Affirmed	_	2/18/03
A+	Affirmed	Stable	5/10/02
A+	Assigned	_	2/24/00

solid spring and application activity, and in particular, demand at the flagship Amherst campus has remained solid. Undergraduate retention and selectivity have remained largely steady, near 85% and 70% (acceptance rate), respectively, in fall 2021.

These enrollment datapoints exclude UMass Global, the system's online college, which primarily serves adult learners and came under UMass' sole corporate control in fall 2021. Amherst remains the largest campus by enrollment with nearly 30,000 FTE students (46% of total fall FTE enrollment) followed by Lowell and Boston at about 14,000 and 13,000 FTE students, respectively. Amherst's enrollment in fall 2021 was slightly ahead of both budget and prior-year levels.

Tuition remained flat for the second consecutive academic year in fall 2021, in a concerted effort to support access across the system. Increases are expected to remain modest going forward, at around 2% for undergraduates.

Solid Commonwealth support continues, with expectations of a modest increase in total support in fiscal years 2022 and 2023. Total Commonwealth appropriations (including for fringe benefits) were about \$845 million in fiscal 2021, and the budgeted base appropriation for fiscal 2022 is up slightly over the prior year. The fiscal 2023 proposed budget stipulates a 2.2% increase in the base appropriation. Separately, the Commonwealth is also providing an additional allocation of \$47 million in ARPA funds in 2022 and 2023 for relatively flexible use through 2027. The Commonwealth of Massachusetts' 'AA+' rating, with a Stable Outlook, reflects its considerable economic resources, adroit management of economic and revenue cyclicality and strong budget controls.

UMass' pooled endowment equaled about \$1.3 billion through December 2021 (unaudited), with a reported 16.5% fund return as of Dec. 31, 2021. The university utilized a 4% spending distribution in fiscal 2021 as it did in prior years, providing a \$35 million distribution to the university for operations.

Operating Risk

UMass' operating risk profile is assessed at 'aa', characterized by diverse revenues, a stable trend of breakeven operations and consistent cash flow margin averaging near 12% over the last three fiscal years. Fiscal 2021 results reflected a 13.6% cash flow margin, despite the coronavirus pandemic having an \$123 million net impact on performance (predominantly lost revenue in auxiliaries).

UMass successfully adjusted its operations by \$69 million to achieve operating balance and was further aided by \$88 million in federal and state stimulus funding. For fiscal 2022, UMass is committed to achieving balanced operations via expense reductions as an offset to below-budget enrollment and lingering pandemic-related costs.

UMass leadership continues to focus on sufficient and sustainable operations at each of its campuses and as a system overall. Solid cash flow remains an important offset to UMass' sizable capital plans, and management plans to closely monitor its capital and debt levels at the campus and system levels. UMass' policy is to sustain debt service-to-total expenditures at no more than 8% by campus, which it has been largely successful at maintaining in recent years.

UMass generates consistent annual and solid campaign giving results in support of its strategic needs, including efforts driven campus-by-campus. Annual giving has been above \$115 million since fiscal 2014, including \$116.7 million in 2021, and UMass also benefits from fairly stable state capital appropriation support (equal to nearly \$63 million in fiscal 2021).

UMass' robust \$2 billion five-year capital plan through 2026 will be funded from a combination of additional debt, fundraising, state support and internal resources. Approximately 26% of the \$2 billion is already under construction, and UMass has issued 25% (\$328 million) of the debt in support of the plan.

Financial Profile

UMass is expected to maintain liquidity against its debt and expenses at a level consistent with the 'aa' assessment. UMass had approximately \$1.75 billion in AFs at fiscal 2020, equal to nearly 50% of total expenses and 43% of adjusted debt, and its leverage levels are expected to remain steady through Fitch's stress case scenario, inclusive of additional debt expectations.

UMass' financial profile is also assessed at 'aa'. Its debt burden remains manageable incorporating the series 2022-1, 2022-2, and 2022-3 transaction. Current debt service coverage (as Fitch calculates) was over 2.0x in fiscal 2021, and debt service is slightly front-loaded, with over half of the principal amortizing within 15 years.

Pro forma maximum annual debt service on the authority bonds is approximately \$234 million, with final maturity in 2052. Some additional debt is likely and can be absorbed at the current rating as principal amortization will provide some additional capacity over the next few years. In addition, Fitch expects any future debt issuance will be accompanied by growth or maintenance of resources sufficient to cover debt service.

Total long-term debt equaled approximately \$3.2 billion at fiscal 2021, including CP (\$200 million maximum authorization, \$77 million drawn as of November 2021) and \$20 million in debt supported by self-liquidity that Fitch rates 'F1+' given the university's long-term credit quality and coverage from ample highly liquid resources.

Overall, UMass maintains adequate balance-sheet resources, with steady AFs against expenses of 54%. However, AFs are weaker against adjusted debt at just under 44%. Total adjusted debt, including debt equivalents, is closer to \$4.1 billion. Debt equivalents totaled about \$1.04 billion in fiscal 2021, in the form of noncancellable operating leases and the Massachusetts State Employees Retirement System cost-sharing, multi-employer defined benefit pension plan liability.

The pension obligation is the largest component of adjusted debt, reflecting UMass' \$644 million in reported net pension liability adjusted using a 6% discount rate (down from the 7.15% disclosed discount rate) to a total \$884 million net liability. The state provides support for a portion of UMass' fringe benefit costs that equaled \$277 million net of the university's contribution of its portion in fiscal 2021.

Asymmetric Additional Risk Considerations

No asymmetric additional risk considerations apply to UMass' ratings.

ESG Considerations

Unless otherwise disclosed in this section, the highest level of ESG credit relevance is a score of '3'. This means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/esg.

Definition	Significance
An expression of overall enterprise risk and relative vulnerability to default.	Provides an opinion on the relative ability of an entity to meet financial commitments, expressed as an ordinal measure of credit risk.
The expected forward-looking case in the current macroeconomic environment.	Provides the analytical starting point in the forward-looking analysis, and also informs the stress case.
Forward-looking performance under a common set of assumptions.	Illustrates how cycles affect individual institutions differently, and informs the level of rating stability and credit resiliency.
Total long-term debt + unfunded pension liability + an operating lease expense multiple	Provides an inclusive evaluation of total long-term liabilities.
Cash + investments -permanently restricted net assets (including those of closely related foundations and endowments)	Provides an absolute measure of total balance sheet resources. Excludes bond proceeds.
(Total adjusted operating revenue - total operating expense)/total adjusted operating revenue	Provides an operating performance measure inclusive of the endowment income available in operations.
Adjusted change in unrestricted net assets from operations + depreciation + amortization + interest expense + pension expense - pension contribution + non-cash OPEB expense + other non-cash expenses	Indicates the absolute level of resources available to service debt obligations after the payment of cash-based operating expenses. Adjusted for non-recurring/extraordinary items.
Adjusted change in unrestricted net assets from operations + depreciation + amortization + interest expense + non-cash OPEB expense + other non-cash expenses + pension expense - proportionate pension service cost	Indicates the level of operating efficiency, using the level of an institution's operating surplus (or deficit) available to cover all of its annual outlays.
Cash flow/current debt service	Indicates the net income available to meet annual debt service requirements.
Accumulated depreciation/depreciation expense	Provides an indication of the condition of the physical operating plant, and the level of needed reinvestment.
Net acquisitions of property plant and equipment/depreciation expense	Indicates the level of investment in physical plant over time, which informs the need for future investment.
	An expression of overall enterprise risk and relative vulnerability to default. The expected forward-looking case in the current macroeconomic environment. Forward-looking performance under a common set of assumptions. Total long-term debt + unfunded pension liability + an operating lease expense multiple Cash + investments - permanently restricted net assets (including those of closely related foundations and endowments) (Total adjusted operating revenue - total operating expense)/total adjusted operating revenue Adjusted change in unrestricted net assets from operations + depreciation + amortization + interest expense + pension expense - pension contribution + non-cash OPEB expense + other non-cash expenses Adjusted change in unrestricted net assets from operations + depreciation + amortization + interest expense + non-cash OPEB expense + other non-cash expenses + pension expense - proportionate pension service cost Cash flow/current debt service Net acquisitions of property plant and

DISCLAIMER & DISCLOSURES

All Fitch Ratings (Fitch) credit ratings are subject to certain limitations and disclaimers. Please read these following limitations and disclaimers this link. https://www.fitchratings.com/understandingcreditratings. In addition, the following https://www.fitchratings.com/rating-definitions-document details Fitch's rating definitions for each rating scale and rating categories, including definitions relating to default. Published ratings, criteria, and methodologies are available from this site at all times. Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct section of this site. Directors and shareholders' relevant interests are available at https://www.fitchratings.com/site/regulatory. Fitch may have provided another permissible or ancillary service to the rated entity or its related third parties. Details of permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third- party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecast

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001.

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see https://www.fitchratings.com/site/regulatory), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by or on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
