

University of Massachusetts (UMass) Virtual Card FAQ

What is Virtual Card?

Virtual Card Program is UMass's preferred method of payment and is part of an effort to eliminate inefficiencies and costs associated with paper payments. It is a virtual payables commercial card account through Paymode-X. It works much like accepting a credit card.

What are the benefits of accepting credit card payments?

- Accelerated and guaranteed payment which improves cash flow
- Reduced paperwork and streamlined accounts receivables processes
- Real-time notifications for each card payment
- Complete remittance detail to support efficient receivables posting
- No changes or modifications to your existing card acceptance procedures

Is there a fee for Paymode-X Virtual Card?

Neither Paymode-X nor UMass assess fees in this program, and each invoice is paid in full. However, because a Virtual Card payment is a credit card transaction, any fees assessed by the supplier's credit card processor will apply.

How will I receive my card information?

Paymode-X Virtual Card is a single-use Virtual Card. You will receive an email notification from Paymode-X each time UMass makes a new Virtual Card payment to you. Each Paymode-X email notification will have an expiration date and will also include a link to easily obtain details on your secure Virtual Card payment from UMass. You will use those payment details to process the Virtual Card payment using your normal Card-processing procedures.

Will I receive a physical card in the mail?

NO! This is a virtual card, meaning there is no physical card to have in your wallet.

What are the Virtual Card net terms with UMass?

Receive UMass payments via Virtual Card NET15 compared to check NET45

How do I enroll in Paymode-X Virtual Card with UMass?
