

ERP Roadmap Project Update

January 10, 2025

ERP Roadmap Development Underway

Stakeholder Workshops – A series of ERP Stakeholder Workshops is underway. Facilitated by Accenture, 21 groups of ERP stakeholders will meet twice to provide perspective and insight into the ERP Roadmap. All groups will meet twice between December and March. All content from the Workshops will be posted on the [Project Website](#) (more information below)

ERP Product Inventory – A comprehensive inventory of all ERP-related software programs in use at UMass is under development. Product inventories are being refined and further analyzed as an input to the ERP Roadmap.

Higher Ed Project Research – Reviewed landscape of R1 universities that belong to systems to understand approaches toward ERP modernization. Identified 20 comparable institutions for deeper analysis. Analysis will be incorporated into the UMass ERP Roadmap.

Modern ERP Product Demonstrations

Overview

- Four ERP vendors (Oracle, Workday, SAP, Ellucian) have been invited to demonstrate their modern ERP products to UMass employees.
- Demonstrations will be conducted from March through June.
- Demonstrations will be organized by ERP functional area and then by topic.
- All demonstrations will be held via Zoom and recorded/posted to the Project website.
- Save the Dates and Demo registrations will be sent via email later in January.
- Information about Modern ERP Product demos available on the [ERP Project website](#).

Website Update

ERP Roadmap Project Website Update – The ERP Roadmap Project website has been updated. All Roadmap content will be posted (requires a UMass credential to access). Check out the updated website [here](#).
