Chair Woolridge convened the meeting at 8:08 a.m. and stated that due to a full Board agenda and the need to keep the meeting moving forward in a constructive manner, any members of the Committee or others who wish to speak must do so through the Chair, and all speakers will be limited to three minutes. He also noted that Board of Trustees meeting guidelines restrict comments to specific agenda items.
Chair Woolridge stated that the Committee had been provided with draft minutes for the September 10, 2014 meeting and asked for any corrections. With no corrections, the minutes were approved.

He also reported on the Higher Education Funding Commission Report, the Capital Plan approval process and the need for additional higher education bond bills to continue state investment in UMass’ capital infrastructure. Committee on Administration and Finance  
December 3, 2014

Chair Woolridge requested the approval of the **University’s FY2015-FY2019 Capital Plan and Changes to the Capital Projects List**. He indicated that the Committee had a chance to review the background materials that were provided and asked for questions or discussion.

Associate Vice President Gorzkowicz provided an overview of the five-year capital plan and its process. He noted the more robust quarterly review process and a more systematic look at campus deferred maintenance through Sightlines. He noted that a report on campus housing strategies would be provided before the end of the month, at the request of Chairman Thomas.

Trustee Fubini noted that Chair Woolridge was not on UMBA’s Board and that it would make sense to include him on that Board.

Associate Vice President Gorzkowicz provided highlights of the Sightlines work and described further the five-year capital plan. Trustee Lee noted that it would be useful to have a column which represented the total for capital projects that UMass was responsible for funding. Associate Vice President Gorzkowicz then reviewed data by program and funding area. There was further discussion about the funding of the projects and those projects that did not yet have funding.

Trustee Fubini asked how many of the projects were new or deferred maintenance. Vice Chair Furman asked how the operating costs for the building projects were added to the budgets. Chancellor Collins commented on the importance of funding the Life Sciences bill. There was additional discussion on the 8 percent cap on debt service and the impact of additional state funding on debt ratios and the management of projects. Trustee Mullan reiterated that it is technically the state’s responsibility to take care of the maintenance of these buildings. He also expressed concern about the recent Board of Higher Education’s report on student projections. There was a discussion about the report on declining student populations and the challenge of demographic projections versus actual student populations.

Director Pasquini reviewed the approved project list and the associated votes on preliminary estimates; full project approvals and changes greater than 10 percent. She reviewed the projects that fall into each of these areas. There was further discussion about the continued advocacy on state funding for UMass Boston’s UCRRR (Utility Corridor and Roadway Relocation) Project. Chair Woolridge expressed interest in understanding more about the project process and vendors. Trustee Mullan agreed that Chair Woolridge should attend UMBA meetings and also requested that a formal cost recovery program be adopted.

It was moved and seconded.

To recommend that the Board take the following action:

Pursuant to Trustee Policy T93-122, as amended, to approve **the University’s Capital planning process that has resulted in this list of capital projects** described in the Five-year Capital Plan (FY2015 to FY2019) Doc. T14-089 and to satisfy the University’s written request that the UMass Building Authority undertake projects in accordance with Board of Trustees vote T14-090. Approval of the University’s capital plan does not constitute approval of the individual
projects and each project must follow the capital project approval process pursuant to Trustee Policy T93-122.

And further,

Pursuant to Trustee Policy T93-122, as amended, to approve the following projects be added to the approved project list under the first vote or “Preliminary Campus Estimate” and to satisfy the University’s written request that the UMass Building Authority undertake projects in accordance with Board of Trustees vote T14-090.
