Chair Karam convened the meeting at 9:20 a.m. The first item on the agenda was the Chair’s Report. Chair Karam thanked Chancellor Hogan for his hospitality that has been shown to the Board over the last two days.

The Board is being asked to consider Student Charges today. The proposal does a good job balancing our desire to keep costs as low as possible with our need to generate the revenue required to provide academic programs of the highest quality. The proposal also keeps student charge increases under the rate of inflation. The Trustees are committed to providing as much student aid as possible; we will be reviewing the financial aid picture in the months ahead concentrating on our goals of access and excellence.

Chair Karam reported on the recent Trustee Retreat. Under the provisions of the Open Meeting law these sessions are informational in nature and no decisions are made. The Board discussed the student experience and what we can do to improve it. There was also a discussion about how to communicate with the public. He thanked his colleagues, the President, the Chancellors and the President’s staff for making the session so valuable. This Board is committed to playing a strong role in the quest to offer the citizens of the Commonwealth a public university of unsurpassed excellence.
There was also an update about the Law School. The University has notified the Board of Higher Education about its plan to seek the authority to grant a J.D. degree via the filing of an official Letter of Intent. Working with the BHE a review team has been assembled to study the academic proposal. The University can be counted on to build a law school that will benefit generations of students. Chair Karam commended President Wilson and Chancellor MacCormack and their staffs for the work that has been done since the last meeting.

Chair Karam reported on the Chancellor’s Search, UMASS Boston. Trustee Rainey, Chair of the Search is doing an outstanding job while the Committee members are doing the hard work of paring down the number of candidates and are on course to make recommendations to the President followed by a recommendation to the Board at its May meeting. Chair Karam thanked the Search Committee members for the significant contribution they are making to this important undertaking.

Chair Karam announced that President Wilson’s Inauguration has been set for May 12 at Symphony Hall in Boston. At this event titled “UMASS Honors” we will also be honoring Senator Edward Kennedy with a President’s Medal for his devotion to opening doors of opportunity particularly in the fields of higher education. President Wilson is foregoing a full scale celebration in favor of applying the funds towards student scholarships. The Trustees will be receiving more details about the event in the near future.

Chair Karam then introduced Trustee Labrecque to give the Student Trustee Report, UMASS Lowell. Trustee Labrecque reported on the importance of the University, the vote on the student charges and where the University is headed.

Trustee Labrecque began his education at the University in 1995 and left the University to begin a working career. Trustee Labrecque went back to UMASS Lowell for a degree in Computer Science and Political Science. He also interned for Martin Meehan, working in Washington D.C. and is now in the graduate program.

While raising fees will cause a hardship for some students it is important to continue to keep up the quality of an education at the University. We need to fund research opportunities to help create and keep industry in the state of Massachusetts.

Following a round of applause for Trustee Labrecque’s report, Chair Karam introduced the next two speakers.

Jen Turner, President, GEO/UAW from the Amherst campus addressed the Board regarding the status of the on-going contract negotiations taking place at UMASS Amherst. These negotiations have been going on for almost a year; the University is asking for cuts in child care and health care benefits. These issues will impact the ability to attract the highest quality graduate students. The Trustees are urged to support a fair labor contract.
Another issue of concern was the fee imposed on international students. Last July, an outside arbitrator in response to a grievance filed in December 2003 ruled that the fee was discriminatory. The Amherst campus has since retracted the fee; this decision should impact all campuses across the system.

Dan Clawson, President, MTA at the Amherst campus distributed the report: “The Shortage of Tenure-Track Faculty at the Amherst campus.” The number of permanent, full-time faculty has declined in the past decade. In 1990 there were 1133 tenure-track faculty; today, there are only 865, a 24% decline in faculty. There is a request for the Board members and the Administration to renew the commitment to devote the necessary resources to the University’s educational mission.

The next item was the President’s Report. President Wilson reported on the University’s finances including budget cuts that have caused us to make some painful choices. The good news is we are making progress with stable funding and the maintenance appropriation. We are committed to rebuilding faculty numbers. Currently there is no funding for the endowment match which has in the past, been helpful towards raising private funds. There has been the creation of a Higher Education Committee in both the House and Senate.

President Wilson discussed the fee increases before the Board today. The increases are below the Higher Education price index and below the current rate of inflation. The University continues to provide an affordable alternative for our students. Any new revenue that comes in will be used for financial aid; we are shooting for 90% of student need. We will invest in new faculty as well as invest in new technology.

President Wilson welcomed Marcellette Williams, Senior Vice President for Academic and Student Affairs and International Relations; her official duties will begin in July.

Other highlights include: the first graduates from the Marine Science Program, Yuko Hasegawa of UMASS Lowell, and Christine Buzzell of UMASS Dartmouth; we’ve won the State-wide Strategic Asset Award from the Massachusetts Alliance for Economic Development; the University is participating in a Coalition of Business and School Leaders developing a plan to address a number of issues in secondary education; UMASS Amherst received a $500,000 NSF grant to provide scholarships for students who wish to enter the math/science teaching fields; UMASS Amherst and UMASS Lowell have used NSF funding to develop an on-line science education program to provide a master’s degree in science education.

UMASS Boston received one of four University/High School Partnership Awards from Nellie Mae to continue their work at the Dorchester Educational Complex, and a grant will be directed towards maximizing the number of students who complete high school and continue on to earn degrees from UMASS and other colleges.
At UMASS Worcester, Dr. Deborah Hines, Associate Vice Chancellor for School Services was recently named 2004 Outstanding School Partner by the Massachusetts Association of School Committees; UMASS Memorial received a $12.5M gift for the Emergency Care Campaign; UMASS Dartmouth opened its 1200 bed Resident Student Complex; UMASS Boston is working with Dana Farber addressing the needs of cancer patients.

In addition to the traditional Admission Application Process, UMASS Amherst will offer an Early Actions Admissions Program for students who have identified the campus as their top choice beginning with the class of 2010.

President Wilson reported that the University is academically healthy with dedicated faculty and staff and wonderful students.

Chair Karam reiterated the University’s commitment to affordability and accessibility and is pleased that we are able to keep the fee increases to a minimum.

The requirement for each nomination would require the individual to have national and/or international, cultural or public service. Any person receiving an honorary degree from one campus shall not be eligible for five years. Following that five year period, nominations will be discouraged and will only be approved under extraordinary circumstances.

Chair Karam thanked Trustee Austin and the Committee for their work improving this policy.

It was moved, seconded and

The next item was **Academic Year 2005-2006 Mandatory Student Tuition and Fee Rates and Student Housing Rent and Food Service Charges**. Vice President Lenhardt summarized the factors leading to today’s action. Reductions in state support in 2001 resulted in program cuts, layoffs and reductions in staff. In the Fall of 2001, the Board voted annual increases in student charges. Current rates and the rates proposed for next Fall reflect a policy aimed at
limiting increases in total mandatory student charges to no more than the rate of inflation for resident undergraduate students.

Proposed annual increases in total mandatory student charges range from $234 to $275 for resident undergraduate students, averaging approximately 3.2%. Room and Board rates are proposed at rates to meet contractual, utility and wage cost increases as well as capital improvement needs. It was noted that all private universities and most private colleges in Massachusetts cost more than double than at the University.

Trustee Pham stressed the need for the University to do everything possible to remain accessible and affordable and that in the coming years, the University’s students, faculty, research and development will help to increase our funding.

Following a brief discussion about financial aid, Chair Karam indicated that this issue would be on the agenda of a meeting in the near future so that Trustees understand what is involved.

Professor Schwartz agreed with the need to discuss financial aid in more detail; many first generation students and their families attending the Boston campus are reluctant to take out school loans.

It was moved, seconded and

**VOTED:** In accordance with Section IA of Chapter 75 of the General Laws, to establish and approve tuition at the following maximum rates for the Amherst, Boston, Dartmouth and Lowell campuses for academic year 2005-2006:

Due to a potential conflict of interest, Trustee Boyle abstained himself from voting.

Trustee White stated his desire to discuss financial aid further but acknowledged that everything goes up in cost. Chair Karam reported that state support throughout the country has dropped on average over the last ten years from 40% down to 18%.

The next item was the Report of the Development Committee. Trustee Mahoney reported that the Committee met on February 15 where the five Development Directors presented their 2005 fundraising numbers against the stated goals. We are on a solid pace for hitting the 2005 fundraising goals of just about $82 million. The campuses have taken very seriously the direction we have set out; there is a concerted effort on the cash and pledges front with less of a focus on the gifts-in-kind.

The Worcester campus is currently at the lowest percentage or 37% against their total goal of nearly $31 million in cash and pledges; Amherst is leading the pace with 58% against their $22 million cash and pledges goal. We are now in the height of the fundraising cycle.
Trustee Mahoney stated his commitment to continue an upward climb and his desire to raise more funds on an annual basis. He also mentioned that Chair Karam and he will co-host a breakfast that will bring together the five campuses, some key volunteers/friends who will help us open doors for top prospects.

Chair Karam invited all of the Trustees to attend the Breakfast and commended Trustee Mahoney and the Chancellors for their performance of the second quarter.

It was moved, seconded and

VOTED: To rescind the University of Massachusetts Mission Statement as stated in Doc. T97-101 and to adopt the University of Massachusetts Mission Statement as stated in Doc. T05-024.

Trustee Rainey then reported on the Status of the Chancellor’s Search, UMASS Boston. She first thanked the Committee members and Vice President Chmura for their work on the Search. The next steps of the Search include interviewing a list of candidates for the position. Following that process we will produce a list of candidates to President Wilson for his review. We expect to present names for consideration to the Board at the May meeting.

Professor Schwartz from the Boston campus asked if the finalists would appear on campus. Trustee Rainey responded that the Search Committee is considering this request; there is an issue of confidentiality that needs to be considered.

The next item was University of Massachusetts Bond Refinancing. Vice President Lenhardt reported that the University has an opportunity to refinance almost $200,000,000 worth of HEFA bonds through the Worcester City Campus Corporation with projected savings of $4 million.
