## BOARD OF TRUSTEES (as of September, 2005)

James J. Karam of Tiverton, RI, *Chairman*  
 Karl E. White of Boston, *Vice Chairman*  
 John A. Armstrong of Amherst  
 Dennis G. Austin of Duxbury  
 Lawrence F. Boyle of Milton  
 Matthew E. Carlin of Sudbury  
 Christine K. Cassel, M.D. of Philadelphia, PA  
 John A. DiBiaggio of Snowmass Village, CO  
 Edward A. Dubilo of Weston  
 Fritz Hyppolite, Student, Boston  
 William F. Kennedy of Quincy  
 Ruben J. King-Shaw, Jr. of Carlisle  
 Craig Longo, Student, Worcester  
 Valerie Louis, Student, Amherst  
 Robert M. Mahoney of Wellesley  
 Heather M. Makrez, Student, Lowell  
 Robert B. McCarthy of Watertown  
 William T. O'Shea of Basking Ridge, NJ  
 Janet D. Pearl, M.D. of Wellesley  
 Stacey R. Rainey of Boston  
 Robert K. Sheridan of Hingham  
 Brian R. Silver, Student, Dartmouth

## CHANCELLORS

John V. Lombardi

# FACTS 2005-2006

**The University of Massachusetts** - The University was established in 1863 as the Massachusetts Agricultural College, located at Amherst. It became known as the Massachusetts State College in 1932 and in 1947 became the University of Massachusetts. The Worcester and Boston campuses were established in 1962 and 1964, respectively. The Lowell and Dartmouth campuses (previously the University of Lowell and Southeastern Massachusetts University, respectively) were consolidated into the University under Chapter 142 of the Acts of 1991. The University is governed by a single Board of Trustees composed of 19 voting members and three non-voting members. The President of the University (located in Boston) oversees the five-campus system, and each campus has its own Chancellor.

**UMass Amherst** - The flagship, public land-grant campus of the state's public higher education system, UMass Amherst is a major research institution enrolling more than 25,000 students, from all 50 states and more than 100 countries. UMass Amherst has achieved a reputation for excellence in a number of disciplines, its breadth of academic offerings and its leadership role teaching, research and public service in the Commonwealth. Its 10 schools and colleges offer six associate's degrees, 88 undergraduate majors, 68 master's and 48 doctoral programs. Sponsored research activities total more than \$130 million a year. Located on 1,450-acres in the scenic Pioneer Valley of Western Massachusetts, the campus provides a rich cultural environment in a rural setting close to major urban centers. As a member of the Five College consortium, the university shares a mutually rewarding relationship with students from Amherst, Hampshire, Mount Holyoke and Smith colleges.

**UMass Boston** - Established in 1964, UMass Boston prides itself on providing challenging teaching, distinguished research, and extensive public service to Boston and the Commonwealth. The campus, overlooking Boston Harbor, offers 78 undergraduate degree programs, 54 master's and graduate certificate programs, 14 doctoral programs, and 16 undergraduate certificate programs through its six colleges, the McCormack Graduate School of Policy Studies, and the Division of Corporate, Continuing, and Distance Education. UMass Boston serves the most diverse student population in New England. As a leading urban institution that sponsors 39 research centers and institutes, UMass Boston contributes substantially to public policy discussion and formulation in areas such as economic development, education reform, environmental affairs, social services and health care. UMass Boston is integral to the City and its neighborhoods, reaching out through partnerships with the Boston Public Schools, local businesses, community organizations, and youth sports.

**UMass Dartmouth** - A vibrant public university actively engaged in personalized teaching and innovative research, and acting as an intellectual catalyst for regional economic, social, and cultural development, UMass Dartmouth has an enrollment of more than 8,500 students in over 40 undergraduate and 25 graduate programs (including four at the Ph.D. level) offered by the College of Arts and Sciences, the Charlton College of Business, the College of Engineering, the College of Nursing, the College of Visual and Performing Arts and the School for Marine Science and Technology. The main campus, designed by the eminent architect Paul Rudolph, is located on 710 acres in North Dartmouth. Other university sites include the Center for Marine Science and Technology on the waterfront in New Bedford, the Advanced Technology and Manufacturing Center in Fall River, the Star Store Center for the Arts in New Bedford, and professional and continuing education centers in Fall River and New Bedford. At UMass Dartmouth, the scholarly research and creative activities of faculty and graduate students are interwoven with the undergraduate experience.

**UMass Lowell** - Internationally recognized for its excellence in science and engineering, UMass Lowell is a leader in nanotechnology and nanomanufacturing, biomaterials, bioinformatics and advanced materials. The campus offers 15 doctoral, 29 master's and 38 bachelor's degree programs in science, engineering, health, humanities, social sciences, fine arts, education and management. Signature programs include sound recording technology, plastics engineering, economic and social development of regions, and community health and sustainability. The campus maintains partnerships with businesses, health care providers, school systems, non-profit organizations and government offices that enrich educational experience, research and public service. UMass Lowell's sponsored research activities total more than \$25 million.

**UMass Worcester** - The Worcester campus houses the University's academic Medical Center, including the Medical School, the Graduate School of Biomedical Sciences and the Graduate School of Nursing. The campus offers four master's and 13 doctoral degree programs, provides general and specialized medical care to the citizens of central Massachusetts with its clinical partner UMass Memorial Health Care, and engages in a research program which benefits not only the recipients of clinical services, but contributes to the national effort to understand, prevent and treat disease.

**UMassOnline** - The University of Massachusetts' online education consortium delivers accredited, online programs from UMass Amherst, Boston, Dartmouth, Lowell and UMass Medical School. Online programs embody the same academic quality and rigor as their classroom counterparts, and are fully accredited (NEASC) and nationally recognized. Online programs span the broad range of academic disciplines that UMass is known for: education, IT, nursing, public health, management, criminal justice, hospitality and tourism, and the liberal arts. UMassOnline delivers 45 graduate, undergraduate and non-credit degrees and certificates, as well as 800 online courses annually to diverse, geographically dispersed learners.

## HEADCOUNT ENROLLMENT (Fall 2005)

	<i>Undergraduate</i>	<i>Graduate</i>	<i>TOTAL</i>
