

FACTS 2006-2007

The University of Massachusetts - The University was established in 1863 as the Massachusetts Agricultural College, located at Amherst. It became known as the Massachusetts State College in 1932 and in 1947 became the University of Massachusetts. The Worcester and Boston campuses were established in 1962 and 1964, respectively. The Lowell and Dartmouth campuses (previously the University of Lowell and Southeastern Massachusetts University, respectively) were consolidated into the University under Chapter 142 of the Acts of 1991. The University is governed by a single Board of Trustees composed of 19 voting members and three non-voting members. The President of the University (located in Boston) oversees the five-campus system, and each campus has its own Chancellor.

UMass Amherst - The flagship, public land-grant campus of the state's public higher education system, UMass Amherst is a major research institution enrolling more than 25,000 students from all 50 states and nearly 100 countries. UMass Amherst has achieved a reputation for excellence in a number of disciplines; its breadth of academic offerings; and its leadership role in teaching, research, and public service in the Commonwealth. Its 10 schools and colleges offer six associate's degrees, 87 undergraduate majors, 73 master's and 52 doctoral programs. Research activities total more than \$140 million a year. Located on 1,463 acres in the scenic Pioneer Valley of western Massachusetts, the campus provides a rich cultural environment in a rural setting close to major urban centers. As a member of the Five College consortium, the University shares a mutually rewarding relationship with students from Amherst, Hampshire, Mount Holyoke, and Smith colleges.

UMass Boston - Established in 1964, UMass Boston prides itself on providing challenging teaching, distinguished research, and extensive public service to Boston and the Commonwealth. The campus, overlooking Boston Harbor, offers 80 undergraduate degree programs, 63 master's and graduate certificate programs, 14 doctoral programs, and 12 undergraduate certificate programs through its six colleges, the McCormack Graduate School of Policy Studies, and the Division of Corporate, Continuing, and Distance Education. UMass Boston serves the most diverse student population in New England. As a leading urban institution that sponsors 39 research centers and institutes, UMass Boston contributes substantially to public policy discussion and formulation in areas such as economic development, education reform, environmental affairs, social services, and health care. UMass Boston is integral to the City and its neighborhoods, reaching out through partnerships with the Boston Public Schools, local businesses, community organizations, and youth sports.

UMass Dartmouth - A vibrant public university actively engaged in personalized teaching and innovative research, and acting as an intellectual catalyst for regional economic, social, and cultural development, UMass Dartmouth has an enrollment of more than 8,700 students in more than 40 undergraduate and 25 graduate programs (including four at the Ph.D. level) offered by the College of Arts and Sciences, the Charlton College of Business, the College of Engineering, the College of Nursing, the College of Visual and Performing Arts, and the School for Marine Science and Technology. The main campus, designed by the eminent architect Paul Rudolph, is located on 710 acres in North Dartmouth. Other university sites include the Center for Marine Science and Technology on the waterfront in New Bedford, the Advanced Technology and Manufacturing Center in Fall River, the Star Store Arts Campus in New Bedford, and professional and continuing education centers in Fall River and New Bedford. At UMass Dartmouth, the scholarly research and creative activities of faculty and graduate students are interwoven with the undergraduate experience.

UMass Lowell - Internationally recognized for its excellence in science and engineering, UMass Lowell is a leader in nanotechnology and nanomanufacturing, biomanufacturing, bioinformatics, and advanced materials. The campus offers 15 doctoral, 29 master's, and 38 bachelor's degree programs in science, engineering, health, humanities, social sciences, fine arts, education, and management. Signature programs include sound recording technology, plastics engineering, economic and social development of regions, and community health and sustainability. The campus maintains partnerships with businesses, health care providers, school systems, non-profit organizations, and government offices that enrich educational experience, research, and public service. UMass Lowell's research activities total more than \$29 million.

UMass Worcester - A world-renowned institution in primary care medical education and biomedical research, UMass Worcester is one of the fastest-growing academic health science centers in the country. The campus is home to three schools: the School of Medicine, the Graduate School of Biomedical Sciences, and the Graduate School of Nursing; a \$191 million research enterprise; and a range of public service initiatives throughout the Commonwealth. UMass Worcester offers four master's degree programs and 11 doctoral degree programs and, with its clinical partner UMass Memorial Health Care, provides general and specialized medical care to residents of central Massachusetts. In 2006, UMass Medical School's Craig C. Mello, Ph.D., was co-recipient of the Nobel Prize in Physiology or Medicine.

UMassOnline - The University of Massachusetts' online education consortium delivers accredited, online programs from UMass Amherst, Boston, Dartmouth, Lowell, and UMass Medical School. Online programs embody the same academic quality and rigor as their classroom counterparts and are fully accredited (NEASC) and nationally recognized. Online programs span the broad range of academic disciplines for which UMass is known: education, IT, nursing, public health, management, criminal justice, hospitality and tourism, and the liberal arts. Annually, UMassOnline delivers 45 graduate, undergraduate, and non-credit degrees and certificates, as well as 800 online courses to diverse, geographically dispersed learners.

HEADCOUNT ENROLLMENT (Fall 2006)

	<i>Undergraduate</i>	<i>Graduate</i>	<i>TOTAL</i>
